Travel Expenses Report

From: Tuesday, June 01, 2021

To: Wednesday, June 30, 2021

Report Generated: Monday, August 30, 2021 7:12:28 PM

**Department: Police**

Expenses

Employee	Buck, Jeffrey	Registration Fee	\$0.00
Approving Director	Leap, Dennea	Transportation	\$0.00
Destination	Branson, MO, United States	Meals	\$137.50
Departure Date	June 17, 2021	Lodging	\$187.10
Return Date	June 19, 2021	Other: Fuel 4513-5316-UNL	\$72.57
		Total	\$397.17

Purpose

Advanced Police Motorcycle Training

How did the travel apply to the job?

I desire to attend this training to further assist my riding abilities and familiarization with the police motorcycle. This course helps with different obstacles and challenges the rider by adding time checks for the exercise.

How did training add value to the city?

The skills taught are general riding of the police motorcycle. Lean angle, threshold braking and head and eye placement are also key in these type of training environments.

General comments:

Per diem was paid with a city issued check. Hotel and fuel were paid for with city issued p-card.

Report ID: 331

LARS Request ID: 1186

Department: Power & Light

Expenses

Employee	Krysa, Mitchel	Registration Fee	\$399.00
Approving Director	Nail, James	Transportation	\$0.00
Destination	Lake Ozark, MO, United States	Meals	\$77.00
Departure Date	June 8, 2021	Lodging	\$504.00
Return Date	June 11, 2021	Other:	\$0.00
		Total	\$980.00

Purpose

Attend the State Convention of the Missouri Society of Professional Engineers. Will assume the role of President of the state organization at this meeting, attend and run Board of Directors meeting and participate and earn up to 12 hours of certified continuing education credits (PDH) to assist in fulfilling the requirements for continued registration as a Professional Engineer in the state of Missouri. Funds are included in 6160 2020-2021 O & M 5203 budget.

How did the travel apply to the job?

Several items apply. First I earned 10 PDH's for my PE registration and city training requirements. Met with consulting engineers that would/could assist me with my duties as IPL Power Engineering Manager. Learned additional supervisory skills and learned more about network and presentation practices. Also discussed responses to COVID 19 and work from home issues.

How did training add value to the city?

See above for some details. In addition, I was inducted as the President of MSPE starting July 1, 2021. This helps bring credibility to the IPL Engineering division and notoriety to the City of Independence as a whole. Add more engineering firm contacts for possible assistance with projects for IPL.

General comments:

Very good conference, it went well with little or no inconveniences or issues. More registered professional engineers at the City should consider becoming members of NSPE/MSPE to broaden their influence on the engineering community and help provide more contacts and increase professional networking efforts. Membership and attendance would improve the City's ability to conduct business in a more efficient and economical manner.
