I INTRODUCTION
REVENUE MANUAL PURPOSE

This Revenue Manual was created to provide information and understanding regarding the sources, authority and amounts of revenue received by the City of Independence. The manual is updated as of the printing date with changes in the laws, rates, and sources pertaining to revenue.

CITY REVENUE POLICY

Beginning early in each calendar year, City personnel compile the proposed budget based on anticipated service needs, program objectives, and considering estimated revenues. This process attempts to identify expected services, programs, and projected improvements needed by the community and compares these needs with the anticipated available revenue. The revenue component of the proposed budget must include an identification of the various revenue sources to be used in funding municipal services, and the forecast of estimated revenue each source will produce.

The changing economic conditions locally and nationally may cause changes in the proposed budget. A continuation of services provided by the municipality will depend on how quickly management recognizes these changes and reacts to them. Therefore, the City’s proposed budget is always based on the most current economic information available and an analysis as to how this will impact the City’s revenue.

REVENUE MANUAL CONTENTS

Section II contains a comparison of original and revised estimated revenues for the current fiscal year, as well as actual revenue for the four prior years.

Section III contains descriptive information of each revenue source. Following is a summary of the information provided in the order it appears on the form:

Revenue Source: The standard identifying title as it appears in the City’s Chart of Accounts.

Authorization: A law or an administrative policy which authorizes the City to collect a specific amount of revenue from a specific source.
Account and Distribution of Revenue: Monies are designated to the various funds (General, Power & Light, etc.) and the account code designates the revenue account.

Description, Rate, Legal Limit: An explanation of why the revenue source exists and what services the City provides in exchange for the receipts. The charges assessed for various services, or the formula used to generate a given revenue are explained, as well as any applicable legal limits.

Projection: The method used to estimate revenue.

**SUMMARY**

Each new year brings with it the challenge of meeting seemingly limitless needs and expectations for City services with limited resources. As these needs increase, it becomes even more important to estimate revenues with maximum possible accuracy. Finance Department staff have done thorough research, analysis and interviewing to attempt to make the revenue estimates portrayed herein the most accurate possible given the numerous unknown, variable and volatile criteria involved.

DISTRIBUTION OF REVENUE: General, General Debt and Interest Funds (Taxes levied for public health and recreation purposes are reported within the General Fund)

DESCRIPTION, RATE, LEGAL LIMITS:

Real Estate Tax is a tax on all real property subject to taxation within the corporate limits of the City of Independence, Missouri. The levies are for general municipal purposes, for the retirement of general obligation bonds, and for the public health and recreation grounds purposes.

The following is the assessed valuation of taxable property for Independence as of 1/1/95:

The general formula used to figure real estate tax is as follows:

Tax rates for general and public health and recreation purposes are limited by Missouri Statutes to $1.00 and $.40 per $100 assessed valuation, respectively. There is no limit on the levy rates for the retirement of general obligation debt.

The levy rates established by Ordinance #13090 of 08/21/95 are as follows:

DISTRIBUTION OF REVENUE: General, General Debt and Interest Funds (Taxes levied for public health and recreation purposes are reported within the General Fund.)

DESCRIPTION, RATE, LEGAL LIMITS:

The assessment by the Missouri State Tax Commission is based on length of railroad track or utility lines as furnished by the companies and all other movable property owned or leased (real and personal property) in the City on January 1 of each year. The aggregate assessed valuation of railroad and utility property as of 1/1/95 was $7,003,497. The City’s tax levy is only on the real estate portion of the assessed valuation, personal property is not included. The general formula used to figure the tax is as follows:

Assessed Valuation divided by 100 multiplied by Tax Levy = Tax Amount

PROJECTION:

The estimate is based on historical data of both state and locally assessed real estate valuation of railroad track or utility lines in the City and the current rate of the tax levy. Consideration is also given to account for the new construction.

REVENUE SOURCE: Financial Institutions Tax
ACCOUNT: 3241

AUTHORIZATION: Missouri Statute - Chapter 148

DISTRIBUTION OF REVENUE: General Fund

DESCRIPTION, RATE, LEGAL LIMITS:

This tax is paid to the State by all banks, trust companies, credit institutions, credit unions, insurance companies and savings and loan associations. The State withholds a 2% collection fee and remits the remainder of the funds to counties for distribution to political subdivisions within the County. In January 1982, the Missouri Supreme Court declared the intangible tax on savings and loan associations and credit unions unconstitutional (Missouri Statute - Section 148.48, Jefferson Savings and Loan Association v. Goldbert, 625 SW2d 640 (MO BANC 1982). Savings and loan associations were previously required to pay a 2% tax on gross revenues whereas banks and other financial institutions were taxed on profits. As a result of the Supreme Court decision, all financial institutions are now taxed on profits.

PROJECTION:

Revenue has declined steadily since the Missouri Supreme Court ruling on the intangible tax in 1982. Part of the decline can be attributed to the fact that savings and loan associations are now taxed on profits instead of gross revenues. In addition, profits of financial institutions as a whole have been declining in the past few years.

The estimate is based on historical data due to the indeterminate nature of this revenue source.
