1998-99
REVENUE MANUAL
HONORABLE MAYOR, CITY COUNCIL AND CITY MANAGER:

This document reflects the 1998-99 Revenue Estimate of the City of Independence, historical revenue data, analytical comparisons, and detailed information regarding the City’s major specific revenue sources.

A great deal of effort is expended in an attempt to make the estimates as accurate as possible. Various economic indicators are reviewed and evaluated with regard to the impact that they might have on Independence. Those economic indicators include but are not limited to CPI index (measure of inflation), unemployment, inventory levels, growth in retail sales regionally and nationally. Numerous publications are monitored continuously looking for indications from analysts as to what is happening and will happen in the economy.

In many cases, actual numbers are provided from outside agencies like assessed real property values, grant amounts, rate changes, new major businesses opening, etc. In many other cases estimates are based on criteria that can change dramatically from one year to the next. One example is weather. Temperature during the peak heating and cooling seasons has a dramatic impact on both the City owned utilities and private utilities serving Independence residents. Precipitation, particular rain amounts during the summer, will also have a significant impact on revenues of the Water and General Funds.

In addition to gathering and analyzing data and input as described above, actual historical data for the period up to and including February 1998, as well as information received from various department directors and key personnel, and individuals from other organizations which generate or impact City revenues is received and utilized. Where future revenues can be predicted, at least in part, by past history, five years or more of accumulated data are analyzed with regression analysis and other forms of statistical analysis and evaluated with other factors referred to above, before a final number is considered the best estimate that can be provided.

The above process has proven very effective in recent years with variances from original estimates typically falling in the area of two per cent after factoring in new revenue sources as modified during the year. For example, the original General Fund estimated revenue for the fiscal year ended June 30, 1997 was 43,170,156. Appropriations increased this amount by $1,515,614 to a year end budgeted revenue of $44,685,770. Actual revenues for that year were $45,203,723 or a 2% variance of $937,022. Considering gas franchise fees exceeded estimates by $950,882 due to dramatic rate increases, the net variance of all remaining items was $13,860 or 3/100 of 1%. The Finance Department takes care and pride in our development of estimated revenues.
In the current fiscal year, original revenue estimates were $45,196,363. Through February these had been modified by appropriation to $45,925,609. Of this $729,246 increase, $652,758 was in the grants area reflecting post-budget application for and acceptance of new grants. Given the current revised estimated revenues of $46,576,034 the projected variance from the amended revenue budget is $650,425 or 1.4%. The primary components of this amount are Fines and Forfeitures ($419,146) and Taxes ($265,471) which together make up $684,617 of the variance.

Considering that estimated revenues become the cornerstone on which the operating budget is built, this kind of accuracy is critical to the financial health and proper management of the City.

The following summary reflects original and revised estimates of total revenue by fund for fiscal 1997-98 and current projections for fiscal 1998-99:

I INTRODUCTION
REVENUE MANUAL PURPOSE

This Revenue Manual was created to provide information and understanding regarding the sources, authority and amounts of revenue received by the City of Independence. The manual is updated as of the printing date with changes in the laws, rates, and sources pertaining to revenue.

CITY REVENUE POLICY

Beginning early in each calendar year, City personnel compile the proposed budget based on anticipated service needs, program objectives, and considering estimated revenues. This process attempts to identify expected services, programs, and projected improvements needed by the community and compares these needs with the anticipated available revenue. The revenue component of the proposed budget must include an identification of the various revenue sources to be used in funding municipal services, and the forecast of estimated revenue each source will produce.

The changing economic conditions locally and nationally may cause changes in the proposed budget. A continuation of services provided by the municipality will depend on how quickly management recognizes these changes and reacts to them. Therefore, the City’s proposed budget is always based on the most current economic information available and an analysis as to how this will impact the City’s revenue.

REVENUE MANUAL CONTENTS

Section II contains a comparison of original and revised estimated revenues for the current fiscal year, as well as actual revenue for the four prior years.

Section III contains descriptive information of each revenue source. Following is a summary of the information provided in the order it appears on the form:

Revenue Source: The standard identifying title as it appears in the City’s Chart of Accounts.

Authorization: A law or an administrative policy which authorizes the City to collect a specific amount of revenue from a specific source.
Account and Distribution of Revenue: Monies are designated to the various funds (General, Power & Light, etc.) and the account code designates the revenue account.

**Description, Rate, Legal Limit**: An explanation of why the revenue source exists and what services the City provides in exchange for the receipts. The charges assessed for various services, or the formula used to generate a given revenue are explained, as well as any applicable legal limits.

**Projection**: The method used to estimate revenue.

**SUMMARY**

Each new year brings with it the challenge of meeting seemingly limitless needs and expectations for City services with limited resources. As these needs increase, it becomes even more important to estimate revenues with maximum possible accuracy. Finance Department staff have done thorough research, analysis and interviewing to attempt to make the revenue estimates portrayed herein the most accurate possible given the numerous unknown, variable and volatile criteria involved.

DESCRIPTION, RATE, LEGAL LIMITS:

Real Estate Tax is a tax on all real property subject to taxation within the corporate limits of the City of Independence, Missouri. The levies are for general municipal purposes, for the retirement of general obligation bonds, and for the public health and recreation grounds purposes.

The following is the assessed valuation of taxable property for Independence as of 1/1/97:

The general formula used to figure real estate tax is as follows:

\[
\text{Assessed Valuation divided by 100 multiplied by Tax Levy} = \text{Tax Amount}
\]

Tax rates for general and public health and recreation purposes are limited by Missouri Statutes to $1.00 and $.40 per $100 assessed valuation, respectively. There is no limit on the levy rates for the retirement of general obligation debt.

The levy rates established by Ordinance #13701 on 08/18/97 are as follows:

- General Municipal Purposes Levy: $.52/$100 Assessed Valuation
- Public Health and Recreation Grounds Levy: .24
- General Obligation Debt Levy: .00
- **Total Levy: $ .76/$100 Assessed Valuation**

PROJECTION:

The estimate is calculated by combining preliminary real estate assessed values provided by Jackson and Clay counties with estimates of new construction provided by the Community Development Department. This total is then multiplied by the current levy. The result is reduced by a 1.6% county collection fee and 1½% allowance for uncollectible taxes.

REVENUE MANUAL

REVENUE SOURCE: Financial Institutions Tax
ACCOUNT: 3241

AUTHORIZATION: Missouri Statute - Chapter 148

DISTRIBUTION OF REVENUE: General Fund

DESCRIPTION, RATE, LEGAL LIMITS:

This tax is paid to the State by all banks, trust companies, credit institutions, credit unions, insurance companies and savings and loan associations. The State withholds a 2% collection fee and remits the remainder of the funds to counties for distribution to political subdivisions within the County. In January 1982, the Missouri Supreme Court declared the intangible tax on savings and loan associations and credit unions unconstitutional (Missouri Statute - Section 148.48, Jefferson Savings and Loan Association V. Goldbert, 626 swzd 640 (MO BANC 1982). Savings and loan associations were previously required to pay a 2% tax on gross revenues whereas banks and other financial institutions were taxed on profits. As a result of the Supreme Court decision, all financial institutions are now taxed on profits.

PROJECTION:

Revenue has declined steadily since the Missouri Supreme Court ruling on the intangible tax in 1982. Part of the decline can be attributed to the fact that savings and loan associations are now taxed on profits instead of gross revenues. In addition, profits of financial institutions as a whole have been declining in the past few years.

The estimate is based on historical data due to the indeterminate nature of this revenue source.
