Water Heating

When customer has in regular use a permanently installed Electric Water Heater of not less than 30 gallon storage capacity, the following net monthly rate shall become effective provided that the first 150 KWH of energy used per month is billed at the net monthly standard rate:

8.12¢ per KWH for 300 KWH

If customer's bill exceeds 450 KWH per month, the remaining energy use shall be billed through the prescribed energy blocks of the net monthly standard rate.

The Department may install an automatic control device to prevent the simultaneous operation of the water heater and range or other large appliances, or to disconnect the water heater during peak load periods.

Qualifying Electric Space Heating Equipment

Qualifying electric space heating equipment shall be permanently installed, thermostatically controlled and in normal use and shall include all types of electric space heating equipment of not less than 3 KW (except heat pumps) which are the sole source of comfort heating for room or rooms to be heated. Qualifying space heating equipment shall also include electric heat pumps or add-on electric heat pumps used with fossil fuel heating and other types of heating or solar heating systems of not less than 12,000 Btu nominal cooling capacity. The add-on heat pump shall be the sole source of space heating for the space to be heated during outdoor temperatures at or above the thermal heating capacity balance point of the heat pump. Add-on heat pumps shall be properly sized for the cooling space to be cooled and shall include the necessary control equipment which automatically operates the heat pump as the sole source of space heating during outdoor temperatures at or above the thermal heating capacity balance point of the heat pump. The thermal heating capacity balance point is the outdoor temperature at which the heating requirements of the space to be heated exceed the heating capacity of the heat pump and, therefore, other heating systems must be used in order to satisfy the heating requirements of the space to be heated.

FUEL-ENERGY COST ADJUSTMENT

See Schedule FA-1.

BILLING PERIODS

The "off-peak" season shall be for seven consecutive billing months with the first billing month commencing with meter reading cycle 1 occurring in October each year.

The "on-peak" season shall be the remaining five consecutive billing months.

PAYMENT

Monthly bills will be rendered NET, payable on or before the due date of the net monthly bill. The gross monthly bill, which is 105 percent of the net monthly bill, will be collected if monthly bill is not paid on or before due date.

PAYMENT IN LIEU OF TAXES TO CITY OF INDEPENDENCE

The net monthly bill rates of this service schedule include charges for the Department's payment in lieu of taxes (PILOT) to the City's General Fund as authorized by Section 3.17 of the City Charter. The Department's PILOT payment to the City is equal to the amount of City taxes and fees charged on privately owned utilities, including the 9.08 percent franchise fee, applicable utility property taxes and sales taxes.

TERMS OF SERVICE

Service rendered under this schedule is subject to the Department's standard rules and regulations.
