GIRLS HAD FUN IN JAPAN

Beautiful Higashimurayama, known for Lake Tama, gave the nine exchange students and escort a fast paced, fun-filled and loving time. To the right we have a group photo of (back row) Elizabeth Polina, Austin Snethen, Emily Collins, Miriam Vnaoni, Emily Tanner, Marie Mader, (front row) Shayla Jarman, Dana Masters, Anna Price and Alyssa Wilt.

Two weeks flew by as they got to know their host families, tried the cultural foods, visited city locations, interacted with school children and toured historic sites. This was not all that was on their agendas because they absorbed modern Japan while learning traditional customs.

It was very hot for the girls but they never let the temperature get them down. They were always ready to try something new and had smiles on their faces while experiencing a rare chance at being in our Sister City.

Citizens of Higashimurayama were very helpful, thoughtful, and generous with the American Exchange. So many thanks go out to the committees, host families and leadership that made this a most successful exchange.

Having missed the one in 2009, this was a much needed exchange for the Sister City program.

Above, Emily Collins and dear friend, Kazue Miyazawa, attend the Mayor's Luncheon with 9 exchange students. Some of the thoughts they expressed there were how

they enjoyed Tokyo Disney, being with the teens that would be coming to America and how wonderful the Japanese adults were to them. HIFA gave choices on craft activities to learn from the Japanese heritage as well as doing some physical activities like archery. There were also festival atmosphere on BBQ day where they busted open watermelons with sticks while being blind-folded. Elementary children treated the girls like rock stars and students stopped the girls on the street, while shopping, to practice English.

Pictured above with Lana White is Mr. & Mrs. Ohno. Mr. Ohno has been president of the Higashimurayama International Friendship Association over the years that the JSCC has existed. He has been a strong factor in both the student and adult trips.

His American home-stays have been primarily with Bill and Joanne Shaw, whom he has hosted as well. Mr. Ohno's wisdom is very appreciated after 32 years of changing commission members, hundreds of students and large adult trips to the United States. We appreciate all his work and JSCC advice he has.

JSCC Sister School Visitors

We appreciate the kindness extended to our teachers, Jeannae Segura-Brown and Alreda Adams for offering an additional Sister School visit at the same time as the Student Exchange took place. Having a home-stay experience Jeannae and Alreda visited the in-session classes at our Sister Schools.

Also the HIFA group pictured to the right met to discuss the prior year and the future exchange with adult representatives from the trip.

Chairman, Jeannae Segura-Brown said the trip renewed her strength for the JSCC/HIFA program.

Teacher, Alreda Adams amongst children, finds out what makes Japan such a special country so that she can share 1st hand knowledge in USA Schools.

If you would like to participate in the 2011 Exchange or know someone who would, applications are on the web site on the Exchange Tab at: www.ci.independence.mo.us/sistercity. Just because it was an all-girl trip in 2010 doesn't mean boys aren't accepted. It made it nice for the girls to do some feminine things but as pictured above they also experienced a large variety of activities such as the one pictured above.
