Purpose

Annual conference of the Missouri Section of American Water Works Association. This conference provides 13 hours of continuing education credit for my MO-DNR water licenses and my Professional Engineering license which I am required to maintain as part of my position with the Department.

How did the travel apply to the job?

The conference provided continuing education hours necessary to retain my Missouri DNR Water Operator A and DS-III licenses along with my Missouri Professional Engineering License. In addition to the training credit, this conference provided an opportunity to network with peers from other utilities across the State of Missouri.

How did training add value to the city?

The training was focused on the latest regulatory changes and the challenges we will face to meet those regulations. It also provided access to review some of the latest technologies, equipment and best management practices being implemented in the water industry.

General comments:

It was a great value for the amount of training provided.
